MD900 Update der Firmware

- ☑ Copying the current firmware version file to the root directory of the enclosed USB stick
- ☑ In the root directory of the USB stick there exists a file
  [n_]MD900-Firmware-Vx.y.r-Installer.md900.pkg

> ℹ️ Info: x.y.r in the filename indicate the version number.
>
> For USB stick update packages, the filename may contain a numeric prefix *"n_"*

> ⚠️ Attention: There must be only one file with the name
> *[n_]MD900-Firmware-Vx.y.r-Installer.md900.pkg* in the root directory

- ☑ Securely unplug the USB stick from the PC and plug it into one of the 3 USB ports on the back of the synthesizer

- ☑ After a few seconds, the synthesizer will stop and a prompt will appear to perform the update

  Found /media/MEMI/[n_]MD900-Firmware-Vx.y.r-Installer.md900.pkg to process, continue?

- ☑ Above the rotary pushbutton 1 appears the option: *Yes*
  Above the rotary pushbutton 2 appears the option: *No*

- ☑ If the displayed file name matches the desired update and is to be performed, the update process can be started by pressing the rotary pushbutton 1 (Option *Yes*)

- ☑ The update file is loaded and checked

☑ After that the update menu is displayed:

MD900 Firmware Flasher

Flash Main   Flash Parts   Flash Voice   Exit

1   2   3   4

☑ Pressing a rotary key starts the firmware update
- o Press rotary pushbutton 1 (Option *Flash Main*)
`--> Flash Firmware of Main Board ...`
- o Press rotary pushbutton 2 (Option *Flash Parts*)
`--> Flash Firmware of Parts Board ...`
- o Press rotary pushbutton 3 (Option *Flash Voice*)
`--> Flash Firmware of Voice Board ...`

☑ The flash process is started

☑ With `...ok` is indicated that the process is finished

☑ Pressing the rotary pushbutton 4 (Option *Exit*) terminates the Firmware Update Tool

Synthesizer XVAOS Update

Current XVAOS Version

- ☑ Webpage: Home > Support > Downloads
  - o XVAOS Update Package
  - o Contained in USB-Stick Update Archives
